

*And the winner is...*

## ***Melanie Mildenhall***

*Cardiac Coach, Coronary Care Unit*

I am very pleased to advise that Melanie Mildenhall is the March winner of the Employee of the Month Award.

Melanie has been part of the Coaching Patients on Achieving Cardiovascular Health program for the past two years. In this time she has worked hard to raise awareness of, and to educate staff and other clinicians at FHHS on the benefits of the program.

Melanie has enrolled over 270 patients into the program and helped coach them back to optimal health.

Melanie was very conscientious about her work and showed a great deal of kindness and empathy to her patients, Nursing Director, Critical Care Directorate said.

"She has a fantastic positive approach to her work and loves to have a good laugh in most situations," he said.

A formal presentation of the award by the Hospital Executive team will be held in her department.

*Please continue to nominate lots of deserving colleagues. All nominations are valid for three months. Remember to always use the current nomination form available from the Public Relations Department and the Intranet.*
